

**Forged in France  
since 1922**

**INVICTA**

## WHAT MAKES INVICTA UNIQUE?

- Made in France
- Cast iron fabrication for efficient radiant heat
- Post Combustion Technology for low-emission, fuel efficient heating

For nearly a century, Invicta's foundry in Champagne-Ardenne has produced fireplaces as flawless as the region's other famous eponymous export.

Offering up fuel efficient, beautifully designed pieces that perfectly showcase the 'alchemy of talent and know-how' of the nearly 300 staff Invicta employs. The foundry produces 170,000 cast iron fireplaces every year, continuing a craftsmanship culture that has resounded in the region for generations.

## Bring warmth to your place with a diverse and elegant range of designs

### PHAROS

Rotating 360°, Pharos warms every corner of the room while adding a resonant sense of understated chic to any space. Beautifully merging form and function, this efficient and attractive fireplace is testament to the genius of Invicta's innovative design team.

- + Chic design makes an understated impact
- + Burns up to 10 hours on a single load of fuel
- + Heat output – 12 kW
- + Size (mm) – W531 x D530 x H1250
- + Efficiency – 76%
- + Heating surface – up to 192m²

## ARGOS

Impactful and masculine Argos makes an arresting addition to living or working areas. This powerful and efficient piece of design is made for modern living, incorporating a clever wood storage compartment at its base and featuring a signature centre window that encases and celebrates the fire inside.

- + Sleek design allows for use with multiple spaces and designs
- + Burns up to 10 hours on a single load of fuel
- + Heat output – 12 kW
- + Size (mm) – W531 x D530 x H1250
- + Efficiency – 76%
- + Heating surface – up to 192m<sup>2</sup>

## KAZAN

Directly inspired by the thermal efficiency of cast iron radiators, the compact and affordable Kazan slow combustion fireplace combines contemporary design and efficiency. The large heat exchange surface area enhances the Kazan's energy performance.

- + Made in France with a 5-year warrantee
- + Nominal heat output – 9kW
- + Material – Cast iron
- + Heating surface – up to 110m<sup>2</sup>
- + Efficiency – 76%

## OVE

Free-standing and spectacular, Ove provides warmth in the coolest way possible. Its compact size and curved shape allow it to blend seamlessly with your design aesthetic, drawing influences from movement, mid-Century modernism and, of course, fire itself.

- + Striking design makes a bold statement
- + Burns up to 10 hours on a single load of fuel
- + Heat output – 10 kW
- + Size (mm) – W550 x D550 x H1310
- + Efficiency – 76%
- + Heating surface – up to 160m<sup>2</sup>

## ONSEN

Our most affordable slow combustion stove yet, the Onsen lets you bask in beautiful warmth while enjoying the flames from any angle thanks to its three-pane firebox. Onsen is also superbly efficient, offering one of the lowest emissions scores in Australia.

- + Ecodesign 2022 compliant
- + Nominal heat output – 6kW
- + Material – Steel
- + Size (mm) – W502.5 x D518 x H1048
- + Efficiency – 81%

## SHOGUN

Fabricated in France in an iconic retro Danish style, Shogun by Invicta is the quintessential outdoor cooking companion. With cast iron construction and high grade rust-resistant steel grill, Shogun is a durable and minimalist barbecue feature for your patio or balcony.

- + Sleek design allows for use with multiple spaces and designs
- + Burns up to 10 hours on a single load of fuel
- + Heat output – 12 kW

## GOUSTAOU

Incorporating a barbecue, cooktop and pizza or bread oven into one compact, moveable outdoor cooker, Goustaou is convenient, effective and attractive to look at. Wheel it out when it's time to cook and put it back into storage once the party's over; perfect for gardens with less space (or those where a barbecue is not part of the design concept).

- + Sleek design allows for use with multiple spaces and designs
- + Burns up to 10 hours on a single load of fuel
- + Heat output – 12 kW
